REPORT ON ACTION TAKEN ON THE FEEDBACK FROM STUDENTS

As per the feedback given by students a few areas in college needed improvement. According to the students, mentoring needs to be more effective and to do so because of pandemic, online mentoring was conducted for the students. The students also suggested that more add-on courses are to be conducted to make the programme more employment oriented however, this could not be done because of pandemic but the college is considering to include add-on courses in the future. Students also suggested that sports and canteen facilities need to be improved. The college is considering to make necessary changes in the canteen area in the upcoming academic year.
