## CARITAS- ASL PROJECT

Caritas Goa works on numerous projects and offers services to children with disabilities. Along with their partner organization, Sense India, they recognise the necessity of learning ASL and initially started courses for parents, educators/ trainers working with students having Deaf-blindness.

The main vision of Caritas' ASL course is to make sign language a priority and improve fluency just like any other learnt language- to promote inclusivity. We saw it as a necessity to open this course to the general public as a way to dive into the enriching world of sign-language.
