Parents Feedback Report
(2018-19 To 2022-23)

The feedback from parents of students within the institution reflects a generally positive sentiment, encompassing various dimensions of their children's educational experience. The teachers' approach to teaching is predominantly well-received, with a significant percentage expressing satisfaction in the categories of Very Good and Good.

Parents acknowledge the acquisition of learning values, encompassing knowledge, and concepts, as well as the development of skills, analytical abilities, and broadening of perspectives. The perceived growth opportunities for students and the relevance of the courses for employment, self-employment, and higher education also receive positive feedback.

Industry-academia exposure is recognized as a notable aspect, with a substantial percentage of parents indicating satisfaction in the exposure their children receive. Extra-curricular activities, which contribute to a holistic educational experience, are also perceived positively.

Infrastructure and ambience, library facilities, canteen services, and sports facilities collectively contribute to the overall positive perception of the institution from the parents' standpoint. The secure campus environment is a significant factor, with a high percentage expressing strong agreement that their wards feel secure on campus.

Moreover, parents take pride in their children studying in college, as indicated by the positive responses in the "Ward studying in college is a matter of pride for you" category.

In summary, the feedback from parents reflects an endorsement of the institution's teaching approach, academic offerings, extracurricular activities, and the overall campus environment. The data suggests a high level of satisfaction with the holistic educational experience provided by the institution.
