Master of Commerce (M.Com.)

Think, Design, Prototyping Workshop on 3D Printing

The Post-Graduation Department of Commerce, in collaboration with the Goa State Innovation Council (Department of Science & Technology, Government of Goa), is organising a hands-on **Think, Design, Prototyping Workshop on 3D Printing** for the M.Com. students on Tuesday, 1st October 2024.

The workshop shall begin at 9.30am at the Rapid Prototyping Lab, Don Bosco College of Engineering, Fatorda, Margao, Goa.

This workshop will provide students with practical experience in rapid prototyping using cutting-edge 3D printing technology. It is designed to help students understand the design-thinking process and how to turn ideas into tangible prototypes. Experts from the field will guide students through the steps of designing and creating prototypes.

Key Highlights of the Workshop:

- Introduction to 3D Printing technology
- Hands-on experience in designing and printing prototypes
- Understanding the role of rapid prototyping in innovation and start-ups

All students must participate as this workshop is a key component of the boot camp on Innovation and Entrepreneurship.

Students have to make their own arrangements to reach the venue on time. Attendance for this workshop is mandatory.
